AGREEMENT

I understand as a Smokebrush Farm (SBF) CSA member that the variety of produce I receive depends on growing conditions that vary from season to season. CSA members share in the inherent risks (poor weather, drought, disease, early frost, crop failure, etc.) and rewards (the bounty from a good season) involved in farming. SBF plans for such contingencies and uses growing techniques that protect the harvest, minimize risk to members and optimize the rewards, such as growing a wide variety of crops that thrive in different conditions, season extension, and irrigation. I also understand that my share will not be saved if I do not pick it up on the scheduled day, or arrange for a family member or friend to pick it up on the scheduled day. By participating in this CSA, I am supporting local agriculture as well as participating in the creation of a healthier society.
